REBUILD THE UNITED STATES

A PLAN TO PUT 10 MILLION AMERICANS BACK TO WORK

**TO: President Obama, U.S. Senators & U.S. Congressional Representatives**

## Enact the Jobs Bank and Create Up to 20 Million Jobs

We, the American people, are suffering through an economic decline that has caused millions to be without jobs or partly employed and we have had enough! We need our elected representatives to focus on the urgent need for creating 20 million new jobs. This will generate new growth and \$400 billion/ year in new tax revenues ending cutbacks in spending for schools, bridges, teachers, fire fighters police officers and threats to Social Security and Medicare.

**\$350 billion in loan guarantees x 6 years = \$2.1 trillion = Up to 20 million jobs**

**Our Proposal:** We propose Congress enact the JOBS BANK (The Employment and Energy Mobilization Act) to provide \$350 billion/yr in federally backed loan guarantees to insure banks making loans for new jobs. The JOBS BANK will be self-supporting based on fees paid by loan applicants. Projects must be financially sound, create new jobs and reduce energy consumption and emissions. The JOBS BANK will operate for six years. The President will appoint the director to run the JOBS BANK.
